Genetically modified food controversies are disputes over the use of foods and other goods derived from genetically modified crops instead of conventional crops, and other uses of genetic engineering in food production. The disputes involve consumers, farmers, biotechnology companies, governmental regulators, non-governmental organizations, and scientists.

What about Portion Size? And how is GI Determined? The glycemic index is about the quality of the carbohydrates, not the quantity. Obviously, quantity matters tooâ€”and that is the reason for the glycemic load valuesâ€”but the measurement of the glycemic index of a food is not related to portion size.

### **The Glycemic Index**

Advertising is a pervasive influence on children and adolescents. Young people view more than 40 000 ads per year on television alone and increasingly are being exposed to advertising on the Internet, in magazines, and in schools. This exposure may contribute significantly to childhood and adolescent obesity, poor nutrition, and cigarette and alcohol use.
